

I believe that New Jersey's Do Not Call List program to be a good one, although I believe that these lists should be optioned in, when you receive a new number, and the lists should be free and easily checked against for those that make a living by calling on people (for sale by owners, and expired listings, since I am a real estate broker.) I myself pay the LEC an extra monthly fee for call intercept; a privacy manager that forces an announcement for the nameless and or numberless callers. I STRONGLY BELIEVE SOLICITERS SEEKING MONEY/DONATIONS SHOULD CONTACT PAST DONORS OR CORPORATIONS AND LEAVE THE REST OF US ALONE!
